

DecoPrint-H Series

Achieving outstanding
decoration solutions.

Application possibilities

Hot stamping for various articles
among others for the plastic,
packaging and automotive industry.

Main features

- Highest precision and reproducibility due to servo motor
- Simplest operation and changeover adjustment of hot stamping parameters at the panel
- Plug and Play. Easily move within the factory

Your benefit

- Energy efficiency. 30 - 50% energy saving in relation to conventional hydraulic presses
- Clean working conditions as no hydraulic oil and compressed air is used
- High availability and reliability
- Compact design

DecoPrint-H Series

New approach in hot stamping.

DecoPrint-H20

Technical data

Stamping press	Loading depth	Heating head
20 kN (2t)	300 mm	140 x 230 mm or 140 x 330 mm

DecoPrint-H60

Technical data

Stamping press	Loading depth	Heating head
60 kN (6t)	300 mm	400 x 300 mm (other dimensions on request)

DecoPrint-H120

Technical data

Stamping press	Loading depth	Heating head
120 kN (12t)	400 mm	500 x 300 mm (other dimensions on request)

DecoPrint-H200

Technical data

Stamping press	Loading depth	Heating head
200 kN (20t)	400 mm	600 x 400 mm (other dimensions on request)

ACHIEVING OUTSTANDING DECORATION SOLUTIONS
