Compact Compact Plus

All equipment-components are of explosion-proof-execution EEX(e)T3. The switch board has no explosion proof and has to be installed outside the EEX-area.

Automatic Screen Washing Equipment with integrated drying unit

Compact is dedicated for efficient screen washing including drying for reasonable prices:

- ✓ automatically controlled exhaust fan for removal of solvent fumes from operating room
- ✓ separate rotating spray-bars for efficient application of recirculating wash solvent from both sides
- ✓ high capacity pneumatic-pump for easy solvent replenishing of solvent tank (125 Liter)
- ✓ automatic shut-off nozzle gun and grounded solvent hose
- ✓ ground wire with fast mounting clip for solvent drum;
- ✓ solvent filtration device

Compact Plus

- ✓ 2-Tank system for washing and rinsing
- ✓ electrical pump

Compact **Compact Plus**

Automatic Screen Washing Equipment with integrated drying unit

Compact & Compact Plus = max. screen size 1200 x 1000 mm

Integrated drying unit TRM

mounted alongside COMPACT 1000 with 4 screen frame drying racks; drying residual solvent moisture off screens is a must for pro active pollution control and fastest screen through-put

Advantages

- ✓ the washed screens are dried outside of the wash chamber => improved ambient air condition
- ✓ the separate drying of the screens prevents the wash chamber from drying out => saves solvent
- ✓ it is possible to wash again immediately => saves time

COMPACT standard features

- ✓ application of solvents from both sides
- ✓ integrated drying system TRM
- ✓ automatic solvent replenishing system
- ✓ exhaust system
- ✓ drip pan with grit work
