

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

screen printing:
a difficult work process –
labour intensive

+

dane machines:
automating work process –
saving labour

equals:
greater job satisfaction,
higher profits and
a cleaner environment

exposure processor

The unique exposure processor

Experience

We are proud to introduce to you the new dane exposure in-line, an ideal
sublement for an computer to screen proces and a true innovation within screen-
printing.

Functions

dane exposure is a compact in-line scanning exposure unit, that provides an
always constant and precise exposure of direct emulsions and capillary stencils.
It is equipped with foto-integrator, volt-compensator and a unique system for
controlling the nano-metres and straightening out the light. It provides a high
quality and excellent capacity within a minimum of space.

Operation

dane exposure incorporates the latest PLC technology, which gives the operator
an easy and practical machine to handle. Based on the innovative technology
incorporated in the dane exposure, it provides many possibilities of adjusting the
machine to your production.

Construction

The basic construction is manufactured of high-grade stainless steel and can be
produced in various sizes to meet your specifications. The machine is
manufactured
according to CEN NORM 1010-1/2 and is CE-marked.

Economy

Our dane exposure processor secures the lowest possible consumption of
electricity which combined with a minimum of service and maintenance
ensures a good economy and a fast return on investment.

If you want a exposure processor with a unique high quality and capacity, at the
lowest possible cost, dane exposure is the perfect choice for you. Once you have
