

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

squeegee grinder automatic

The highly advanced and unique fully automatic squeegee grinder

Experience

The highly advanced and unique dane grinder automatic first saw production in the early seventies. It was quickly recognized for its high quality, precision grinding, basic concept and design, which still applies today – however implementing the latest technology as well.

Functions

dane grinder automatic is a high capacity fully automatic all-round grinder for all squeegee types and materials. The machine is equipped with our unique grinding system that prevents grinding particles from clogging while grinding and gives excellent cooling properties. The dane grinder automatic provides a fully automatic highly advanced and unique grinder system with excellent quality and capacity.

Operation

dane grinder automatic incorporates the latest PLC technology and the digital key-in system secures an easy operation and a short make ready time. In addition dane grinder automatic incorporates the advanced possibilities of cambering and angle grinding.

Construction

The basic construction is manufactured of high quality steel and is produced in various sizes to meet your specifications. The machine is manufactured according to CEN NORM 1010-1/2 and is CE-marked.

Economy

Our squeegee grinder secures the lowest possible consumption of electricity, which combined with a minimum of service and maintenance ensures a good economy and a fast return on investment.

If you want a squeegee grinder with a fully automatic highly advanced and unique grinding system of excellent quality and with high capacity, at the lowest possible cost, dane grinder automatic is the perfect choice for you. Once you have chosen
