

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

classic dane split

High quality front and back split machine with variable speed

Experience

dane split 100 is a reliable, high quality front and back split machine with variable speed. dane split 100 first saw production in the sixties and the basic concept and design still applies today – however implementing the latest technology as well.

Functions

dane split 100 is constructed to provide extreme perfection and high output on front as well as back splits of even the thinnest types of self-adhesive materials. Based on our advanced high quality steel cylinder, the unique cutting blades and the feeding system, the dane split 100 can provide a constant high output of a high quality.

Operation

The cutting depths and the distance between cutting heads of the dane split 100 can easily be adjusted and the unique knives of carbide tungsten metal with extremely long life secure a constant, reliable and precise cutting result. Furthermore, on the dane split 100, it is possible to move and angle the feeding table. This combined with a sheet counter and a variable speed control secures the shortest possible make ready time and highest output.

Construction

The basic construction is of high quality steel and is manufactured in various standard widths to meet your specification. The machine is manufactured according to CEN NORM 1010-1/2 and is CE-marked.

Economy

Our dane split 100 secures the lowest possible consumption of electricity and this combined with a minimum of service, maintenance and make-ready time, ensures a good economy and a fast return on investment.

If you want dependable and efficient high-quality cutting result of front as well as back splits and at the lowest possible cost, dane split 100 is the perfect choice for
