

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

screen printing:
a difficult work process –
labour intensive

+

dane machines:
automating work process –
saving labour

equals:
greater job satisfaction,
higher profits and
a cleaner environment

dane · stencil

stencil processor

The unique and reliable stencil processor

Experience

dane stencil offers a high capacity and short processing time with a constant and perfect developed screen. Dane stencil has been in production since 1987 and the original construction still applies today – however implementing the latest technology as well.

Functions

dane stencil is constructed to provide an always constant development of direct emulsions, projection emulsions and capillary stencils, of a high quality and with an excellent capacity.

Operation

dane stencil incorporates the latest PLC technology, which gives the operator an easy and practical machine to handle. Based on the innovative technology and water spray system incorporated in the dane stencil, it provides many possibilities of adjusting the machine to your production.

Construction

The basic construction is manufactured of high-grade stainless steel and can be produced in various sizes to meet your specifications. The machine is manufactured according to CEN NORM 1010-1/2 and is CE-marked.

Economy

Our dane stencil processor secures the lowest possible consumption of water and electricity which combined with a minimum of service and maintenance ensures a good economy and a fast return on investment.

If you want a stencil processor with a unique high quality and capacity, at the lowest possible cost, dane stencil is the perfect choice for you. Once you have chosen dane stencil, we are confident that you will also be a satisfied Dane customer.
