

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

screen printing:
a difficult work process –
labour intensive

+

dane machines:
automating work process –
saving labour

equals:
greater job satisfaction,
higher profits and
a cleaner environment

automatic wash in-line 125 T

Ultra compact automatic screen-cleaning

Experience

Upon customer requests, we are proud to introduce the ultra compact screen cleaning unit the dane wash 125T. Based on the experience with the field-proven dane wash machines, the dane wash 125T is of the same high quality as our other dane wash machines, but with a frame height limited to 700mm.

Functions

dane wash 125T is an in-line ink and stencil removal system, constructed to provide perfectly cleaned screens on an absolute minimum of space. The vertical frame passage design is a totally closed, fully automated wash in-line system. The non-clogging nozzles combined with the efficient brush system ensure a perfect cleaning result - even of the most difficult screens.

Operation

dane wash 125T incorporates the latest PLC technology, which gives the operator an easy and practical machine to handle. dane wash 125T provides dependable and efficient high-quality screen cleaning. The dane wash 125T will find its work task in print-shops for example within the textile, electronic, gift-articles businesses.

Construction

The basic construction is manufactured of high-grade stainless steel. All other materials used in the construction are chemically fully resistant, durable and thoroughly tested. The machine is manufactured according to CEN NORM 1010-1/2 and is CE-marked.

Environment

The design of dane wash 125T is on a strictly environmental basis and is far ahead of its time, ready and prepared to meet additional future demands. It has a totally closed system for re-circulation of ink and stencil remover - securing an environmental-friendly climate indoor as well as outdoor.

Economy

Our washing system secures the lowest possible consumption of chemicals, water, exhaust and electricity, that combined with a minimum of service and maintenance, ensure a good economy and a fast return on investment.

If you want the cleanest screens, a dependable and efficient high-quality washing system and at the lowest possible cost, dane wash 125T is the perfect choice for you. Once you have chosen dane wash 125T, we are confident that you will also be a satisfied dane customer.
