

We invite you to be a
happy customer

A machine is more than just
a machine. Oftentimes, it has
a complicated construction
that at the same time must be
effective, durable and easy to
handle and install, and use as
few resources as possible.

Groenlund Machine Works
manufactures functional, prac-
tical and economic machines
in high-tech Scandinavian de-
sign. Several of our machines
are industrial classics.

Our  not only stands for
Groenlund and our many years
of experience, but also for our
good quality. Therefore we are
confident that you will also be
a satisfied Dane customer.

screen printing:
a difficult work process –
labour intensive

+

automatic wash in-line 250

Medium capacity automatic ink and stencil remover system

Experience

We are proud to introduce to you the dane wash 250, our new medium capacity ink and stencil removal unit. dane wash 250 is the latest development within our screen cleaning units and is based on the field-proven market success dane wash 380.

Functions

dane wash 250 is a in-line ink and stencil removal system, constructed to also provide medium and large-sized screen printing houses with perfectly cleaned screens on a minimum of space. The vertical frame passage design is a totally closed, fully automated wash in-line system. The non-clogging nozzles combined with the efficient brush system ensure a perfect cleaning result - even of the most difficult screens.

Operation

dane wash 250 is equipped with an advanced PLC unit and a large touch panel display which gives the operator easy access to machine operations. The touch panel also gives the operator a range of information facilities, such as keeping track of chemicals, planning maintenance and the overall status of the machine.

Construction

The basic construction is manufactured of high-grade stainless steel. All other materials used in the construction are chemically fully resistant, durable and thoroughly tested. The machine is manufactured according to CEN NORM 1010-1/2 and is CE-marked.

Environment

The design of dane wash 250 is on a strictly environmentally basis and is far ahead of its time, ready and prepared to meet additional future demands. It has a totally closed system for re-circulation of ink- and stencil remover - securing an environmental-friendly climate indoor as well as outdoor.

Economy

Our washing system secures the lowest possible consumption of chemicals, water, exhaust and electricity which combined with a minimum of service and maintenance ensure a good economy and a fast return on investment.

If you want a field-proven, dependable and efficient high-quality washing system and at the lowest possible cost, dane wash 250 is the perfect choice for you. Once you have chosen dane wash 250, we are confident that you will also be a
