

VARIOWASH 2730

Pallet Cleaner, biodegradable, flash point 79°C

1. PROPERTIES

VARIOWASH 2730 is a special cleaner with mild odour and a flash point of 79°C. The effective solvent blend is developed for removing of water-based adhesives from printing pallets, printing equipment and floors as used in the textile screen printing industry.

The well balanced formulation of the slow volatile adhesive remover ensures gentle treatment of all commonly used pallets.

VARIOWASH 2730 is biodegradable and contains no aromatic hydrocarbons, chlorinated solvents or toxic organic substances that are classified in the legislation for hazardous substances and list of maximum workplace concentrations as damaging to embryos or genetic substance.

Safety and pollution related data can be obtained from the respective SDS according to guidelines 1907/2006/EC.

2. APPLICATION

VARIOWASH 2730 is developed for manual use and application by brush, sponge or spray.

Apply a small amount of the cleaner on the surface. Allow to sit for 1 – 2 minutes and increase soak in time for tougher jobs, if necessary. Wipe surface clean with a dry or damp cloth or remove thicker soften adhesive layers by spatula.

3. PACKAGING - STORAGE

VARIOWASH 2730 is packaged in standard 1, 5 or 20 L tin cans and in 200 L drums.

The cleaner has to be stored in a dry and against frost-protected place. Do not expose to direct sun light.

Our technical advice whether spoken, written, or through test trials corresponds to our current knowledge to inform about our products and their use. It is not meant as an assurance for certain properties of the products nor their suitability for each application. You are, therefore, obliged to conduct your own tests with our supplied products to confirm their suitability for the desired process or purpose. The selection and testing of products for specific final application is exclusively your responsibility.
