VALUE PROPOSITION

We have introduced a unified ink set of Eco-Rapid with the new Eco-Fix in all our HD systems, which include the Kornit Avalanche HD6, Storm HD6, Atlas and the Refurbished systems

Thanks to the new Eco-Fix, your customer will benefit from:

Significantly reduced staining, especially on light garments

\subset	
\sim	\rightarrow
C	

Ability to work with a wider range of SKUs

Improved print quality

- Better print uniformity and better white ink laydown
 Overcoming cracks
 Improved durability

Production efficiency

- Same curing time and temperature for both light and dark garments
 Less maintenance

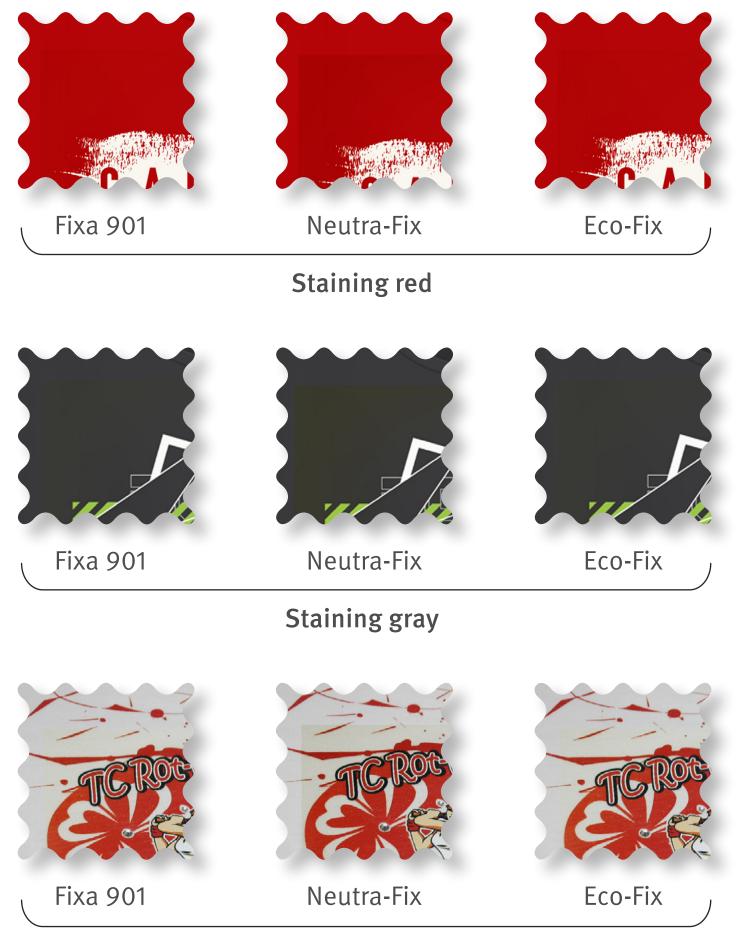

Highest environmental standards, Eco-Passport certified and GOTS approved

REDUCED STAINING

Returning to baseline now with the benefit of no smell

Staining white

Staining yellow

* Over 100 SKUs were tested

ECO-FIX KDAM fabrics

WIDER RANGE OF SKUS

Printing on fabrics with low absorption capacity, resulting in poor print quality, is now a win!

IMPROVED PRINT QUALITY

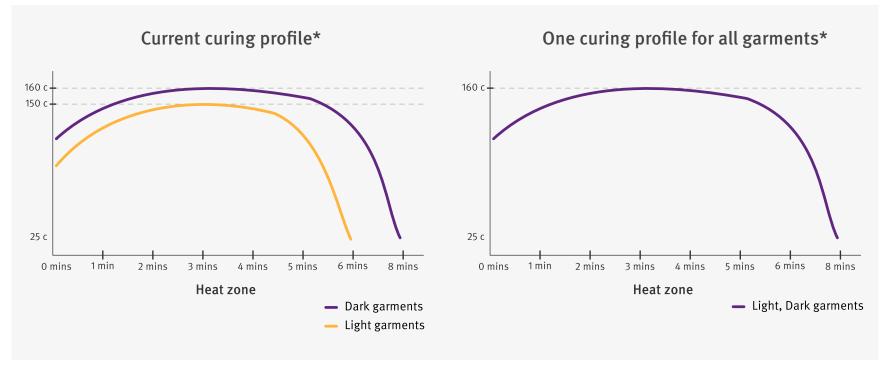

Better print uniformity, overcoming cracks and improved durability

PRODUCTION EFFICIENCY

With Eco-Fix you can cure both dark and light garments at the same temperature and cure while keeping the same print quality and avoiding staining.

* Dependent on customer specific SKUs

In addition, the Eco-Fix formulation enables a more efficient process during the periodic preventative maintenance.

CERTIFICATES

Meet the highest environmental regulation standards with minimal environmental footprint

Kornit's products meet the highest sustainability standards with zero wastewater and a low carbon footprint, enabling on-demand printing that fits today's consumer culture.

WHAT TYPE IS MY CUSTOMER?

In the next section, you will find a Q&A for each customer install base

The differentiation between customer install base is crucial since the value proposition or the upgrade process may vary from one type to another. It is therefore important to identify the right situation in order to follow the applicable transition guidelines.

01/ HD Systems with Neutra-Fix P/Ns:

- 50-NTRF-0902
- 50-NTRF-2902
- 50-NTRF-3902

02/ Atlas Systems Neutra-Fix or Neutra-Fix+ P/Ns:

- 50-NTRF-0902
- 50-NTRF-2902
- 50-NTRF-3902
- 50-NTRF-0001

03/ HD Systems that are still with Rapid ink set

01/ HD SYSTEMS WITH NEUTRA-FIX

Q: What are the benefits?

- **A:** For the detailed list of benefits, please refer to the value proposition page. In a nutshell:
 - Improved staining on a wider range of light garments
 - Uniform, durable and consistent print quality

Q: How the transition is done?

A: The transition is free of charge. From now on, the customer simply needs to order the new P/N 50-ECFX-0905.

All new systems will be provided with Eco-Fix.

Q: What has changed?

A: The Eco-Fix is a new and improved formulation, therefore it holds a new: (i) name (ii) SDS (iii) label and (iv) P/N.

Q: What has remained the same?

- A: Dilution ratio and price.
- Dilution is still 1:3 and price is the same as Neutra-Fix. The new Eco-Fix holds both Eco-Passport certification and GOTS approval.

Q: How is the replacement implemented?

A: Drain the previous fixa. Fill the container with Eco-Fix and spray 100% fixa for each pallet 3 times. The fixation is fully backward-compatible with Neutra-Fix; there is no need for SW upgrade or set-up change.

Q: What should I do with the customers' current fixation agent?

A: Customers should use their current fixation agent until end of stock. To ensure business continuity, make sure they order the new Eco-Fix in advance.

02/ ATLAS SYSTEMS WITH NEUTRA-FIX OR NEUTRA-FIX+

Q: What are the benefits?

- **A:** For the detailed list of benefits, please refer to the value proposition page. In a nutshell:
 - Improved staining on a wider range of light garments
 - Uniform, durable and consistent print quality

Q: How is the upgrade implemented?

- **A:** The upgrade will be implemented by a Field Service Engineer (FSE), free of charge. The upgrade consists of 4 steps, all performed by the FSE:
 - (i) System cleaning
 - (ii) Software upgrade to R10
 - (iii) Enhancement kit
 - (iv) Set-up adjustment

Q: What has remained the same?

A: The new Eco-Fix holds both Eco-Passport certification and GOTS approval.

Q: What has changed?

A: The Eco-Fix is a new and improved formulation, therefore it holds a new: (i) name, (ii) SDS, (iii) label and (iv) P/N.

Q: What about dilution ratio?

A: A customer using Neutra-Fix (902) will have the same dilution ratio 1:2.5. A customer using Neutra-Fix+ (91) will change from 1:2 to 1:2.5.

Q: What should I do with customers' current fixation agent?

A: Customers should use their current fixation agent until end of stock, as there is no take-back mechanism. Any remaining stock will be handled by the After Market Team, case-by-case.

Q: How long does the upgrade take?

A: If the upgrade includes enhancement kit, up to 2 days. For a SW upgrade only, it will take a few hours.

03/ HD SYSTEMS THAT ARE STILL WITH RAPID INK SET

Q: Why should I switch my ink set from Rapid to Eco-Rapid?

A: The Eco-Rapid delivers an excellent printing experience that includes:

- High print quality, industry-leading white opacity L value >90
- Refined hand-feel
- Excellent printing on multiple fabric types, including light, dark and colored garments
- High-quality printing of solids, photo-realistic and detailed designs
- A wider color gamut and vivid colors, more than 10% vs. Rapid
- New and neutral scented fixation agent

Q: What does the upgrade include?

A: The upgrade includes:

- New SW
- Installation of new ink by service
- Optional application training

Q: What are the upgrade kit P/N?

A: Basic Upgrade

- 23-UPGR-0140 -ST/AV HD6
- 23-UPGR-0141-ST/AV HDK

Advanced Upgrade

- 23-UPGR-0142 -ST/AV HD6
- 23-UPGR-0143-ST/AV HDK

Q: What is the difference between the basic and advanced?

A: The advanced upgrade includes a 2-day application training.

ECO-FIX WITH ECO-RAPID.

ONE INK SET FOR ALL SYSTEMS.
