

MOF-PROMO HP Laser System

III. with options

- High-Speed Marking:
Up to 40 PIECES PER SECOND
- High Contrast Laser Marking
- Economical
- Durable
- Flexible
- Plug-and-Play Installation
- Versatile Application Possibilities

Highest performance characteristics for customized requirements

Laser Marking of Closure Caps in High-Performance Scope

With the procedure "Mark on the fly", deployed in the MOF-PROMO HP, all kind of closures, made of most diverse materials, can rapidly be decorated with high precision inside, outside and on the sides. Through the compact design, the user-friendly equipment allows a problem-free integration as inline-variant in existing production lines for closures of all kinds. The laser system is available, depending on the type of application, as MOF-PROMO HP or MOF-PROMO HP 200 Fiber Laser.

Laser marking with "Mark on the fly"

PERFORMANCE CHARACTERISTICS

Production Efficiency:

Increase of the output capacity (with same closure cap size) up to 60 % in the case of

- same character count
- same number of laser pigments (for example red closures)
- QR or DMC Codes

Cost Savings:

- with constant output capacity, the MOF-PROMO HP 200 requires up to 60 % less laser additives
- thanks to low maintenance and durable components

High Contrast Marking:

Very good readability thanks to high inscription contrast

Application Possibilities:

Versatile deployable, for instance for Anti-Product piracy, traceability, promotions, inside and outside marking

Flexibility:

Transport rollers allow for example the change of location of the machine

User-friendly:

Simple operation thanks to software TAMPOPRINT Laser Suite
