GARMENT PRINTERS

Easy. Compact. Reliable.

Simple to learn. Easy to run.

Built for easy operation, reliable production and professional results.

PRINT FROM SMARTPHONE

Receive photos over Wi-Fi directly from the customer's phone. Ideal for retail shops, events, and tourist locations.

STANDALONE WORKFLOW

Built-in Mini PC and pre-installed RIP software. No external computer required.

COMPACT FOOTPRINT

Designed for small shops, retail spaces, and growing production environments.

TOUCHSCREEN OPERATION

Quick access to daily functions, common settings, and maintenance actions.

BUILT FOR STABLE DAILY PRODUCTION

WHITE INK CIRCULATION AND AGITATION

help keep white ink moving.

INK-LEVEL, FILM-END, AND POWDER-END SENSORS

help operators avoid interruptions.

WET CAPPING

helps prevent clogging when the printer is idle.

MOTORISED PINCH ROLLER

supports smooth film handling.

PRINTHEAD PROTECTION SENSOR

helps prevent crashes and costly accidents.

VERTICAL OVEN

with 5 heating elements supports controlled curing.

Transfer

DTF transfers that build reputation.

The reason to invest in Filmjet Mini is not only the hardware. It is the quality of the transfer your customer receives: **vibrant color, strong white, clean edges, and a professional feel** on the garment.

✓ VIBRANT COLOR

Stable ink delivery and Epson® printhead technology help deliver consistent, high-resolution output.

✓ SHARP DETAIL

Multiple print modes allow operators to balance speed and detail depending on the job.

✓ STRONG WHITE

Controlled white ink laydown helps colors stand out on dark garments without creating a heavy print.

✓ SOFT HAND FEEL

Gradual curing with the 5-lamp oven supports a lighter, more professional transfer feel.

UPGRADE ANY TIME

- ✓ Filmjet Mini is designed as a long-term platform that grows with your business. All models can be **upgraded anytime** from the standard **i1600** to the **faster i3200** print heads for **70% more speed**. The i3200 heads are also available as a factory order.

FILMJET CONSUMABLES, DESIGNED TO WORK TOGETHER.

DTF FILM

Anytime peel film for flexible production and smooth transfer handling.

DTF POWDER

Reliable adhesion, flexible feel, and **durable transfers**.

DTF INK

Vibrant colors, strong white opacity, and stable performance.
